

Medidata Patient Cloud: Registration and Patient Management for Wearable Sensor Studies

eLearning Course Outline

Course Description: This course is designed for study managers and site users who support Patient Cloud Wearable Sensor studies.

Attendees will learn:

- How to register a new subject using Patient Cloud Registration
- The four Sensor Statuses found on the Patient Management grid
- How to manage sensor data collection

Approximate Duration¹: 10 mins

Module	Topic
Welcome (1 min)	
Subject Registration (3 mins)	Using the Patient Cloud Registration app in iMedidata
SensorLink Patient Management (4 mins)	Reviewing Sensor Status Types
	Activating a Subject
	Deactivating a Subject

¹ Duration listed is approximated, and does not reflect activities, simulations or assessments
