

## RBQM: Configure Statistical Monitoring eLearning Course Outline

**Course Description:** In this course, you will learn about:

- Introduction to Statistical Monitoring
- How to Configure Datasets for Data Anomaly Detection
- How to Map for Event Analysis
- How to Map for Potential Duplicate Patients
- How to Map for Rounding and Propagation
- How to Map for Lab Measurements, and
- How to Map for Oncology

Approximate Duration: 20 minutes

Module	Topic
<b>Welcome</b> (1 min)	Objectives
<b>Introduction</b> (2 min)	Introduction to the CSM module
	Navigation
<b>Detect Mapping Components</b> (10 min)	Dataset Configuration
	Event Analysis Mapping
	Potential Duplicate Patients Mapping
	Rounding and Propagation Mapping
	Lab Measurements Mapping
	Oncology Mapping
<b>Summary</b> (1 min)	Summary
