

Discover Our Oncology Advantage

Ergomed offers a complete solution for oncology trials of all sizes and complexity.

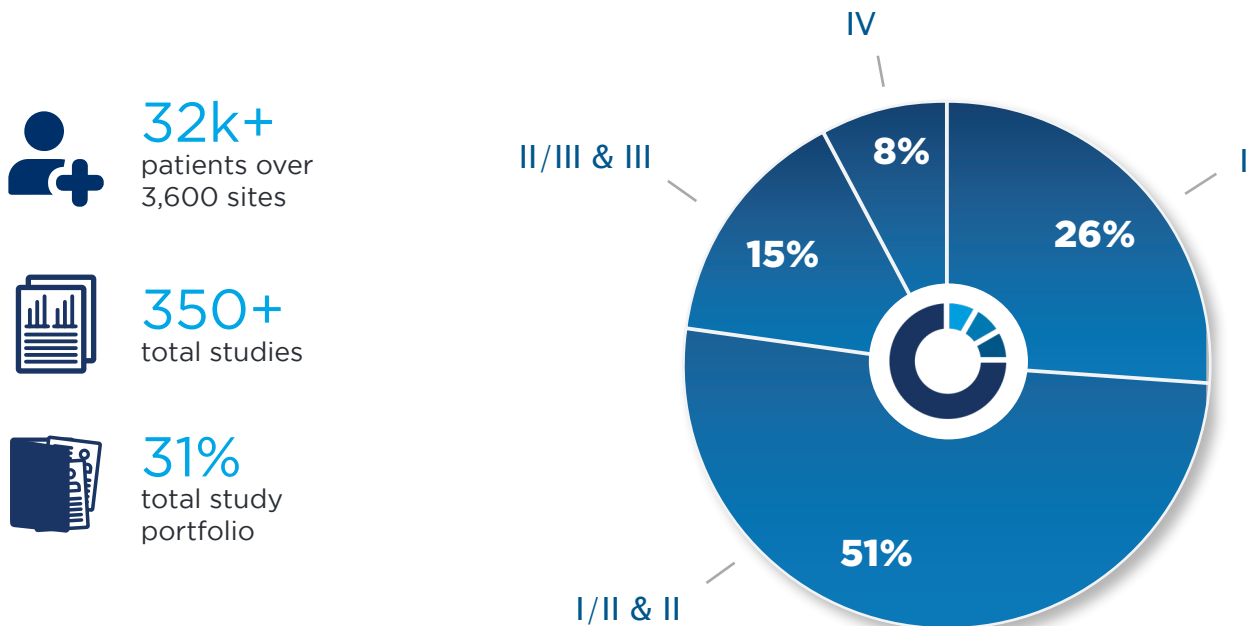

With over 40% of Ergomed’s clinical trial portfolio in hematology and oncology, we provide the expertise to deliver your oncology trials with our seasoned project management team. We have significant experience in early, novel, and adaptive study designs and work with complex therapies. With global expertise, including sites in over 50 countries worldwide, Ergomed works in an actual partnership model with our sponsors, allowing us to deliver their oncology trials.

400+
oncology
projects

43%
