

# Data Connect: Ingest Third-Party Data Using Imports

## eLearning Course Outline

**Course Description:** In this course, you will learn about:

- Imports in Data Connect
- How to Add Data Sources
- How to Add Datasets and Import Data
- How to Activate Imported Datasets
- How to Review and Manage Imports

Approximate Duration: 30 minutes

| Module                                      | Topic                                                                                                                              |
|---------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| <b>Welcome</b><br>(1 min)                   | Objectives                                                                                                                         |
| <b>Imports in Data Connect</b><br>(3 min)   | <ul style="list-style-type: none"><li>• Introduction</li><li>• Prerequisites</li><li>• Tasks with Imports</li></ul>                |
| <b>Data Imports</b><br>(8 min)              | <ul style="list-style-type: none"><li>• Add Data Source</li><li>• Import Vendor Data</li><li>• Review and Manage Imports</li></ul> |
| <b>Import Vendor Data</b><br>( 5 min)       | <ul style="list-style-type: none"><li>• Add Datasets</li><li>• Activate Imported Datasets</li><li>• Manage Datasets</li></ul>      |
| <b>Import External EDC Data</b><br>( 8 min) | <ul style="list-style-type: none"><li>• Add Datasets</li><li>• Activate Imported Datasets</li><li>• Manage Datasets</li></ul>      |
| <b>Import Veeva Vault Data</b><br>(3 min)   | <ul style="list-style-type: none"><li>• Add Datasets</li></ul>                                                                     |
| <b>Summary</b><br>(1 min)                   | Summary                                                                                                                            |
