Medidata Intelligent Trials: Study Feasibility 101

eLearning Course Outline

Course Description: This course is designed for Study Feasibility users, offering a comprehensive guide to navigating the web-based application. It will provide detailed instructions on using the study data filters, tabs, and various functionalities within the tool. The objective is to equip users with the necessary skills to efficiently navigate and search for the appropriate data required for their study and site planning.

Users will learn to -

- Use Study Data Filters
- Explore historical operational data
- Generating Performance Predictions for sites and more

Approximate Duration[1]: ~35 minutes

Module	Topic
Overview (7 mins)	Introduction to Study Feasibility
	Understanding Data Minimum Threshold
Access & Navigation (~2 mins)	Accessing Study Feasibility Application
	Landing Page
Exploring Data (19 mins)	Applying Study Data Filters
	Study Metrics
	Patient Demographics (Subscription Based Model)
	Site Metrics
	Specify Multivariate Ranking
	Site Diversity Metrics (subscription based model)
	Country Metrics
Generate Enrollment Performance Predictions (4 mins)	Using Enrollment Performance Prediction Input Panel
Export Data (~2 mins)	Download spreadsheet for: - Study/Site/Country Metrics - Study Metrics with Charts

---
