- Focus on data capture, management, analysis and reporting in regulatory ready formats
- Use current digital and cloud-based data tools
- GDPR compliant data protection

COST-EFFICIENT.

World class CRO services.
Attractive study budget cost savings.

CEE based RP-CRO can make your study cost efficient

EFFICIENT

- Strong network of qualified PIs
- Large subject pools
- Globally recognized regulatory oversight
- Never compromise on quality

COST-SAVING

- Logistics – samples and Clinical materials freely move within EU with no importation
- Large centralized study sites can reduce travel costs and number of overall sites
 - More efficient monitoring & reduced site management
- Local vendors, like testing labs, can be lower cost and faster
- Digital and cloud-based tools allow for efficient data capture and processing

RP-CRO WHITEPAPER

Ask for a copy of our whitepaper on how to save as much as 45%-55% on study budgets when working with CEE based CROs like Research Professionals.

COMPASSIONATE.

PATIENT FOCUS

- All our staff are patient focused. From enrolment through to study completion we manage our sites and CRO teams with the best interest of the patients in mind.

SPONSOR FOCUS

- We work with a wide range of sponsor company types, from small to large. We take time to understand their needs and work to deliver world-class CRO services every time.

We care about our study subjects. RP-CRO gives them the same high level of support and service that valued sponsors expect from us.

DECENTRALIZED STUDIES.

BRINGING THE SITE VISIT TO THE PATIENT

Research Professionals is an established provider of decentralized study management services.

- 40+ home nursing studies conducted
- Qualified and vetted staff
- Established processes and data collection for off-site visits
- In-house nurse staff provide flexibility to meet study timelines
- No loss of study quality
