

Patient Payments

Streamline Payments on the Most Widely Adopted Clinical Data Platform

Medidata’s Patient Payments enhances the experience of clinical trial participation by offering a stress-free, secure, and efficient reimbursement and payment process for trial participants within myMedidata. This patient-centered solution, built on the most widely adopted clinical data platform, empowers patients with choice and flexibility in managing their payments. For sites and sponsors, it brings unparalleled speed and seamless data integration, alleviating site administrative burdens so they can focus on what matters most – patient care and efficient trial management.

Medidata’s Patient Payments Solution Enables:

Excellent Patient Experiences

Leverage myMedidata’s patient portal and Help Desk for seamless trial engagement and patient assistance.

Engaged Patients with Choice and Control

Put the patient in the driver’s seat and offer flexible payment options and visibility into the process, meeting the patients where they are.

Swift Payment Processing Within a Unified Data Flow

The Medidata Platform and integrated data facilitate automated payment processing.

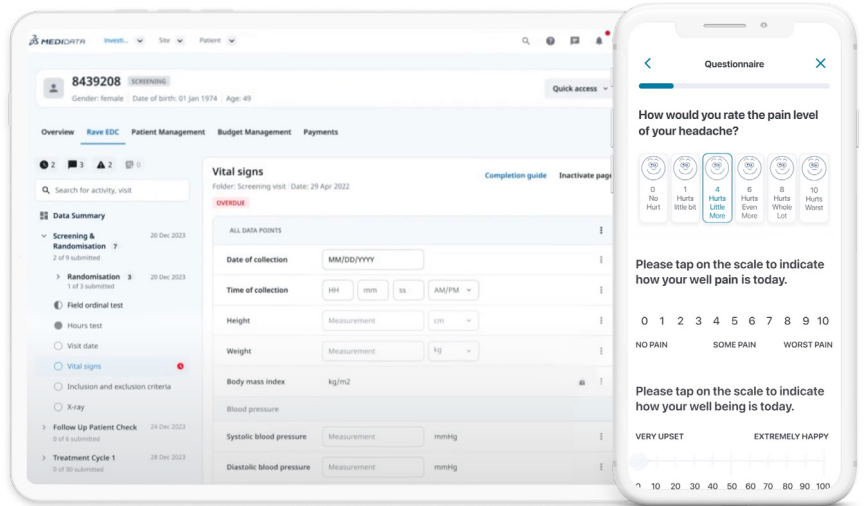

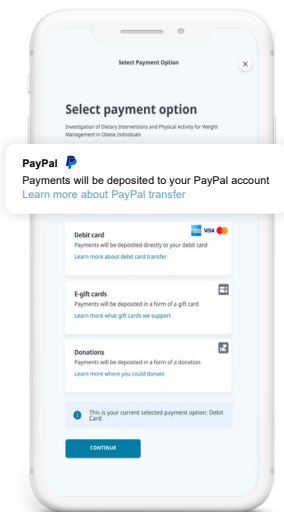

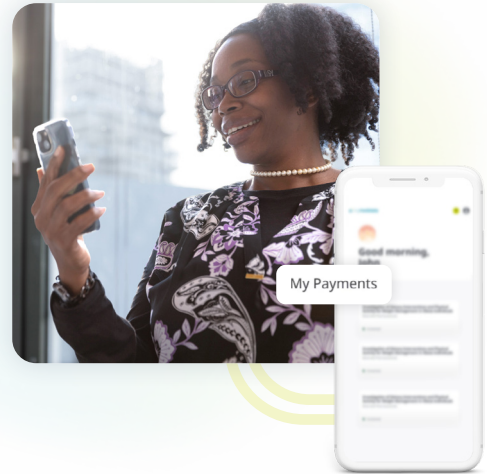

Elimination of Financial & Administrative Burden

Ensure no patient bears a financial burden in their clinical trials. Enhance site-patient relationships with reduced administrative tasks.

Features at a Glance

- Automated and secure payment processing
- Integrated data flow from EDC and eCOA
- Easy access and full visibility for all users
- Preferred payment options for patients
- Detailed and transparent payment receipts

Patient Choice & Visibility

Patients choose their preferred method of payment directly in myMedidata

Data Integration, Transparency & Control

Sponsors and CROs gain a comprehensive view and management of patient payments, seamlessly integrated and automated through EDC and eCOA data

Empower your sites to provide a worry-free patient experience with Medidata's Patient Payments. Combining convenience with patient care, it's a straightforward solution for more efficient trials and delighted study participants.

With the Medidata Platform, Sponsors & CROs can experience an end-to-end clinical finance experience, while sites and patients can work within a flexible DCT experience.
